EMPLOYMENT	**Penn State University**	July 2020 - Present
	Assistant Professor in Computer Science & Engineering	

RESEARCH INTERESTS

My research interest lies in various natural language processing problems in understanding, generation, and grounding that requires effective understanding of context. To be specific, I propose models based on neural network to solve challenging problems in (1) End-to-End Neural Modeling for Entities, Sentences, Documents, and Multi-party Multi-turn Dialogues, (2) Text Summarization for Emails, News, and Scientific Articles, (3) Cross-lingual Information Retrieval for Low-Resource Languages, (4) Context-Dependent Text-to-SQL Semantic Parsing in Human-Computer Interaction.
